

# Fun at the Farmers' Market!

We love supporting our local small businesses!

**One fun way to do so is attending local Farmer's Markets.**

If you have a few minutes — or a few hours — to spend, stop by one and look around.

**Bring your family and have a little adventure!**

Our local Farmers' Markets have something for everyone. Beyond yummy fruits and vegetables, there are also artisans selling soap, art, bread, plants, chocolates, and other gift-like items.

It's fun for a kiddo to pick out a special item of their choice, such as a loaf of whole wheat bread or a fresh box of golden raspberries.

**You'll feel confident buying food to feed your family. Truly, local produce is the freshest food you'll find around.**

The produce vendors are almost 100% local and organic. Organic produce is not sprayed with pesticides, fertilizers, or other artificial products. Local produce also has minimal processing and minimal travel miles on it (which means a smaller carbon footprint!).

**Let's help keep business booming for our local farmers!**

**We invite you to go out and have fun. Check out our list of favorite markets. We hope to see you there!**
